RICHMOND, CALIFORNIA, FRIDAY, JANUARY 2, 1914

No. 1

Proposed Waterway For City's Shipping

Richmond Would Derive the Same Commercial Advantages That Chicago Receives.

The tidelands which reverted to the city can only be used for harbors and waterways for shipping. The Richmond Terminal newspaper has always advocated a channel through the city from San Pablo bay via the inner harbor, said channel to be 300 feet wide and 40 feet deep. Any vessel that floats could be routed through this channel and would benefit our city \$25,000,000. It would give the city a main sewer and would employ a large list of vehicles, teams and motors in transfer business. It would put our city in direct touch with river and ocean shipping. Warehouses and factories would spring up like mushrooms. The city could be

perfectly drained. The cost of living would be reduced. Merchants could unload their goods direct from boats.

The Standard Oil company wants a channel north. H. C. Cutting has made a wonderful development on the south single-handed. Every street could have a landing. The channel could be dredged and the deposit sold or removed at cost for filling. Open the way and instill wonderful life into all classes of business for our commercial city.

Write to the secretary of war for a copy of plans of Ambrose channel, New York city. Boost for the inland waterway.

Atty Hall Says "Can't Be Done."

Demurring to the complaint of numerous property owners who have been assessed for the new intersection pavement in Bissell avenue, City Attorney D. J. Hall has taken the ground that the city of Richmond should not be made a defendant to the action whereby an injunction is asked forbidding the city to issue bonds against the property to pay for the work.

Hall contends that the proper defendant is the Barber Asphalt Paving company, who did the work. Hearing on the request to have the injunction asked by the property owners made permanent, has been postponed until next Monday by Judge R. H. Latimer on the request of the counsel for the property owners complaining.

Albany Birthday Party.

Ed Kreiss, the well known popular candy distributor who frequents Richmond and can be distinguished by the big auto van filled with sweets, which he drives, had a surprise party Monday night at his home in Albany. Ed had gone to bed and his wife was "counting the money" (Ed being in dreamland), when a loud and boisterous noise was heard without. It was caused by a jolly party of neighbors, who had come to celebrate Ed's birthday, which Ed had, in the turmoil of business, forgotten.

The evening was happily spent, Ed receiving as a souvenir of his 25th birthday a Hobson bottle, profusely illustrated, and decorated with ribbon. Ask Ed about it.

Recall Petitions Filed at Martinez

State Senator J. C. Owens of Richmond, Accused of Breaking Faith.

MARTINEZ, Jan. 1.—Fifty-one separate petitions containing 1888 signatures requesting the recall of State Senator James C. Owens were filed Tuesday afternoon with County Clerk Wells.

The number of names secured in the entire senatorial district was 3458. Of this number 1570 were secured in Marin county and 1888 in Contra Costa county.

After verification by the county clerk, the petition will be forwarded to the secretary of state. The question of Senator Owens recall will be settled at the next general election, with the names of those who desire to succeed him in case his recall is carried.

In Martinez only ten signatures were secured.

The governor shall fix a date for holding the election not less than sixty days nor more than eighty days from the date of the certificate to the secretary of state.

Royal Arch Masons.

The newly elected officers of Richmond Chapter, Royal Arch Masons will be installed this evening in Bank Hall. The installation ceremonies will be conducted by the retiring officers.

San Francisco Firm Get Tunnel Contract

Shattuck & Edinger Awarded the Job and Will Commence Work This Month.

The city council adopted the resolution Tuesday night awarding the tunnel contract to Shattuck, Edinger & Co., of San Francisco. Their bid was \$250,317.76, about \$100,000 lower than the highest first class bid.

Engineer Haviland claimed the Shattuck Edinger bid was the most consistent one, and was well balanced throughout.

The council decided to adopt class "A" paving, which will exceed the inferior grade of material about \$18,000.

Work on the big bore will be commenced at an early date, and it is said that local labor at good wages will be employed in the construction of the tunnel.

The bids were as follows:

Shattuck, Edinger & Co.	\$250,317.76
Blake & Bilger Co.	298,672.66
William Healey	294,980.66
Maloney Bros.	306,409.55
Bates, Borland & Ayers	311,564.12
Edward Malley	338,826.59
Robt E. Storrie	340,704.39
Grant, Smith & Co.	347,273.49
Healey, Tibbets Co.	359,431.01
McArthur Bros.	354,236.44

The Majestic Theatre which has been closed during the holidays was re-opened yesterday by Manager Tillotson, and is now better than ever in every way.

Storm-Swept State Receives Soaking

Rivers Overflowing and Traffic in Many Sections Entirely Suspended.

Weather "Probs" called the turn yesterday when he hoisted the signal announcing another deluge accompanied by a stiff gale.

The storm arrived with all its fury last night and flooded the entire bay section, reaching far out into the interior, doing some damage to transportation and power companies, but benefiting agricultural sections millions of dollars' worth.

Locally, there was some inconvenience, the congestion of flood waters on certain streets causing delay and inconvenience.

California is being thoroughly soaked, and not in years has the rainfall been so generous, and the outlook for a prosperous year so propitious.

Watch Night Service.

The Calvary Baptist church held a Watch Night service in its spacious reception room on Wednesday evening. The First Baptist and the First Presbyterian churches were the guests. The early part of the evening was spent in a social time, and a program was rendered. The service closed with a consecration meeting led by Rev. W. S. Stewart. The entire evening was full of good things.

Shipping by Water To Be Facilitated

Congress to Meet in San Francisco January 15-17 to Devise Ways and Means.

California has neglected the waterways of the state with unfavorable results to the state's prosperity. In early days practically all transportation was by water. Sacramento, Maryville,

opening of the canal, water transportation must be provided from the seaboard to the interior. Otherwise the interior cannot reach its full development.

The Commonwealth Club of California, being a state-wide organization, has therefore called representatives of all parts of the state to meet in San Francisco, January 15 to 17, to devise ways and means to develop inland waterways in order that every section in which such development is possible, may reap the advantages of cheap freight for bulky products. Gov. Johnson will preside and deliver the opening address.

Later, water traffic was neglected and almost all shipments went by rail. The Panama line was practically closed and even the Cape Horn route was seldom used. In the last few years there has been a revival of ocean shipping for California freights, and big cargoes go out and come in by the way of Tehuantepec and Panama, even though shippers are taxed for the delays and cost of trans-shipment cargoes by rail across the one isthmus or the other. From twenty to thirty days, and even longer are required to land cargoes between California and eastern ports at the present time, and yet the trade is rapidly growing. With the opening of the Panama Canal, the cost and delay of breaking bulk from steamers to rail and stowing away again on steamer will be cut out. With the lessened expense, and with the time of transit reduced to two weeks by express steamers and three weeks by ordinary freighters, a vast increase of sea-borne traffic is to be expected.

Water transportation will solve the shipping problem of the seaboard cities, but if the state is to reap the full advantages from the

No Outlet For Sewers. The residents of Stege in improving their sanitary conditions could have worked to better advantage, it is claimed, if they had annexed themselves to Richmond, thereby securing adequate waterfront and an outlet for their sewer system by connecting with Richmond. As it stands, Richmond has the entire waterfront to Albany. Northbrae, which adjoins Albany, had trouble about connecting with Albany in securing connections for an outlet to the bay.

Look Like Bad Ones.

The three men arrested Saturday evening following a raid at San Pablo in a case have been taken to the city jail for further investigation.

Your Entire supply of dynamite and explosive material found in the case occupied by the men is damaging evidence.

WINEHAVEN, ONE OF CALIFORNIA'S PRINCIPAL INDUSTRIES LOCATED IN RICHMOND. LARGEST WINERY IN THE WORLD.

Water Congress Delegates.

Mayor Ludwig has appointed Councilmen Penry and Follett, City Attorney D. G. Hall and City Engineer H. D. Chapman delegates to attend the internal waterway congress to be held in San Francisco January 15-17.

"More the Merrier."

The Terminal notes with pleasure the announcement in the Martinez newspapers that Richmond is to have within the month another newspaper, the Daily News. The equipment for the mechanical department has been ordered and will be installed in the building next to the Home bakery on Sixth street.

The directors of the new paper are: Richard Williams, W. M. Pennington, F. H. Eggerth, T. G. Conn, C. G. Kenna, C. H. Brown and Frank Lucas.

The office personnel has not been officially announced, but it is stated that Frank Fall, the well known Richmond printer, will be in charge. The stockholders comprise a large number of union labor men of Richmond, besides many merchants and business men, who are desirous of having a "fighting machine" to stand by and fight the battles of the union labor party, that won some victories at the city election last spring and will make things lively in the coming campaign. The Terminal welcomes the new daily and wishes it prosperity.

Escaped Convicts Are Caught.

The two convicts who escaped from San Quentin last week were caught at San Jose yesterday, where they were about to "turn another trick." Since their escape they have committed a number of robberies. Hurley was serving 14 years for highway robbery and Melville 25 years for the same offense.

New type at the Terminal job printing office. Business and personal cards and commercial printing a specialty. Prices right.

PERSONAL.

Eggs have jumped to 65c.

The big storm raised the rainfall to about 12 inches for the season.

G. D. Christian and Joanna D. Worley have secured license credentials to wed.

Don't forget the butchers' dance Saturday night, December 10, at East Shore Park.

Mrs. Theresa Montag, mother of Mrs. A. K. Brown, is seriously ill at Hollister, Idaho.

Mrs. James Hansen of San Luis Obispo, expects to come to Richmond to invest in property.

Miss Sylvia Fowler of Mitchell, S. D., is visiting her aunt, Mrs. Anna B. Thorne, 407 Florida, st.

California bought \$46,908,000 worth of automobiles in 1913, and for the second consecutive year leads all states.

L. G. Beach of Reno, Nev., connected with the Gazette of that city, is visiting his brother, Harry Beach of this city.

It is now claimed that some merchants have burglar alarms attached to their stores for advertising purposes.

Mrs. L. D. Moore and little son Tom, have returned from Troy, Mo., where they visited relatives for several weeks.

A banquet and installation was given at Pythian Castle Sunday night by the Brotherhood of Trainmen, Lodge No. 12.

Toys! Toys! Toys! at the Terminal Stationery store, where the monkey nods in the window, 618 Macdonald ave.

Gunboat Smith Wins.

Arthur Pelky was counted out in the fifteenth round of the fight at Daly City yesterday and the championship of the world went to Gunboat Smith. Up to the seventh round the fight was close, but after that Smith had the best of it, finally landing a knockout.

Return from Europe.

Dr. James W. Harris, professor of the Department of Education, College of the Pacific, San Jose, and his sister, Miss Anna E. Harris, of the high school faculty of Huntington, West Virginia, cousins of Dr. Warren B. Brown and Mrs. Anna K. Brown, have returned from Europe, where they studied original materials on educational subjects.

RICHMOND'S CHURCHES.

Calvary Baptist Church.—S. S. at 9:45 a. m. Preaching service at 11. B. V. P. U. at 6:30. Preaching at 7:30, with song service. We have the best music in the city. All are welcome. W. S. Stewart, pastor. Subject of evening sermon, "Satan's Religion."

First Church of Christ Science, corner of 15th and Nevin.—Sunday morning service at 11. Sunday school at 9:30. Wednesday evening meeting at 8.

San Pablo Baptist Church.—S. S. 10 a. m., preaching at 11, prayer meeting Wednesday evening 7:30. Everybody invited, all denominations worship there. S. K. Skinner, pastor.

You are in need of cards for New Year's. Your name and address neatly printed or engraved at The Terminal office, 618 Macdonald.

ONLY SUCCESS OF REBELS CAN BRING PEACE, DECLARES VILLA

Chihuahua, Mexico.—"Nothing less than the fall of Huerta and his banishment from the country will ever be considered as a preliminary toward peace in Mexico," said General Francisco Villa last Sunday. "Any overtures for a compromise would be treated with contempt by the revolutionists."

General Villa was prompted to discuss the subject because of the repetition of a report from Mexico City that General Huerta might resign in favor of a member of his cabinet. But as the report also stated that General Huerta was thinking of taking the field against the rebels it was not considered in any way as a possible peace move. The subject of peace, however, came up in General Villa's comments, and the rebel leader was moved to outline the rebels' views in case future events brought them into consideration.

In substance the terms demanded by the rebels are:

The elimination of General Huerta and his supporters.

The complete surrender to the Constitutional cause of politicians now opposing it.

The restoration of the constitution. The selection of a provisional president acceptable to the Constitutionalists, and provisions for a popular election.

Guarantee of a change in the land laws so that deeds to land would be more generally distributed.

Ratification of the confiscation by the rebels of the vast Terrazas, Creel and other estates, valued at many millions of dollars.

Nullification of all acts of the Huerta regime.

Opinions of General Villa's advisers were that General Huerta will not resign and that the rebels must adhere to their original plan of fighting their way to Mexico City.

"Our cause has progressed to such a point that we would treat any suggestions of a compromise with contempt," said General Villa. "We regard Huerta as a traitor who has dragged his country through blood for his personal ambitions. We have gone through so much distress for the sake of freedom that we would not stop now short of it."

"Within a few months we have won all the north from the usurper. Our forces have increased from a few hundred until now they number over 20,000. This number will grow, for in every city we take hundreds are ready to join. By the time we reach the City of Mexico we shall have enough men in arms completely to overwhelm the Federalists. And we intend to fight until there is no more fighting to do."

The idea that General Huerta might take the field against the rebels, General Villa said, caused no terror to him, although General Huerta is familiar with the north country, having commanded forces here during the Orozco revolt against Madero.

COAST HAPPENINGS TERSELY RELATED

Recent Occurrences in Pacific States Told in Short Items Quickly Perused

San Francisco—F. H. Rainey, a structural iron worker employed at the exposition grounds, fell 50 feet off the manufacturers' building and was killed.

San Jose—Burglars ransacked the home of Eugene T. Sawyer, originator of the famous "Nick Carter" detective stories, and obtained a small lot of jewelry and money.

Sacramento Superintendent Hyatt, head of the state schools, has recommended a plain black dress and white aprons as a uniform style for California high school girls.

Oakland—Dozing in his chair near the fire, Jose Rose, bartender, dreamed he had \$1,000,000. He reached out to seize the gold, when the chair slipped and he fell, breaking his left leg.

Visalia—Henry Weaver, the oldest resident of Visalia, who located here in 1853 with the first pioneers of this section, was instantly killed when he was run over by a Santa Fe freight train in the Visalia yards.

Redding—Harvey Ferrel of Oakland and Henry C. Ferrel of Redding, aged 73 and 80 years, respectively, met here last week after a separation of 61 years since each thought the other dead. They parted in Iowa in 1851.

Vallejo—Joseph Kopf of this city, who was taken to Nebraska three months ago to stand trial for a murder committed 14 years ago, and who was completely exonerated by a jury several weeks ago, has returned to Vallejo.

Sacramento—The initiative measure providing none but property-owners may vote to incur bonded indebtedness in any political subdivision of the state is assured of a place on the 1914 ballot. But 30,875 names were necessary and nearly 36,000 were filed.

Redlands—Suffering from a fracture of the skull and other injuries inflicted by robbers at the government nursery, 40 miles north, Fred Lathaw dragged himself three miles in three days to Seven Oaks, where he was given help. Physicians say he will probably die.

Ontario—Six men, passengers and carmen, were seriously hurt when an inbound Ontario interurban car crashed head-on into a work train on the Pacific Electric Railroad. The accident occurred during a dense fog and was due to a misunderstanding of passing orders.

Sacramento—At the request of the California Fruit Growers' Association, State Horticulturist A. J. Cook appointed a committee of three to confer with the State Viticultural Commission in an effort to bring about co-operation between the viticultural and horticultural interests in California.

San Jose—The offices of the Dudfield Lumber Company were robbed of \$12,450 one night last week. The money was in the safe, which had been left open. Over the safe is a sign, "Here is the safe; help yourself." In the last 12 months several burglars have taken advantage of the invitation.

San Francisco—When Mrs. William H. Schock told Judge Crothers that her husband forced her to shovel more than 20 tons of coal and keep a furnace going in their apartment house in Chicago one winter, she was given an interlocutory decree of divorce from William Schock, a hardware merchant now of Los Angeles.

Portland, Or.—The State Supreme Court decided that the eight-hour labor law applies to all state institutions, and that hereafter no employees of the asylum for the insane, the penitentiary, the reform and industrial schools and other state institutions can be worked more than eight hours in every twenty-four.

Visalia—Miles E. Stokes was sentenced to serve four years in San Quentin by Superior Judge Allen upon pleading guilty to the theft of ten head of cattle from the Frank Blain ranch last November. The case is a peculiar one, in that Stokes is the fourth member of the same family to be sent to prison for cattle stealing.

Los Angeles—F. E. Young, an elderly realty operator of Long Beach, Cal., who pleaded guilty to having written so-called "love fraud" letters to many women and obtaining money from them while they believed he would marry them, was placed upon probation for five years by Judge Gavin Craig of the Superior Court.

Portland, Or.—A tidal wave which swept up from the Pacific at Elmore Park washed out several hundred yards of track from in front of a passenger train bound for Portland, undermined and flooded half a mile of beach cottages and left a row of miniature lakes of sea water along the railroad. The scene of the flood is in Tillamook county. Ordinarily the ocean is half a mile from the railroad at this point.

Locomotive Blows Up
Buffalo, N. Y.—Two men were killed and six injured when a Wabash Railroad engine, running light, blew up on the Erie Railroad, near the northern city line.

Installs Second Auto Engine
Alameda—Alameda's second auto fire engine will soon be in service. The engine was purchased at a cost of \$4000.

TENNIS

American Lawn Tennis association emphasizes the fact that players desiring rating must send in their ratings, and that only scores made in at least three approved tournaments, not interclub or intercity, will be accepted.

It is practically assured that seven or eight countries will try to win the Davis cup, emblematic of the world's lawn tennis championship, from this country next year. Until March, the date for challenging, the exact challengers will not be known.

BILLIARDS

Calvin Demarest of Chicago ran away from Charles Peterson in the last block of their four game match at St. Louis. Demarest cleaned up a block of 400 points. Demarest averaged 23.9-17, while Peterson averaged 12-1.

Morris D. Cline believes that the United States will be the scene of a big amateur international 18.2 balkline billiard tournament before the winter is over. He only recently returned from Europe, where he aroused the interest of foreign talent in the proposition.

GOLF

It is estimated that nearly \$30,000,000 is spent on golf in the United Kingdom every year, and that of this huge sum a little less than half, or \$12,500,000 goes to the caddies.

Henry Vardon and Edward Ray, English golfers, defeated Robert Johnston of Seattle and James M. Barnes of Tacoma, 1 up, in a four hundred thirty six hole match on the links of the Seattle Golf club.

When Maurice Risley won the semi-finals at Atlantic City, his home course, Tillinghast, the Philadelphia golf expert, took occasion to point out that knowledge of the home links is worth many strokes in such a competition. The player knows what clubs are required for every distance where the stranger does not. This was undoubtedly true in the case of Quimet at Brookline, too.

FOOTBALL

Wagner, Pittsburgh's star football player, is not related to Honus Wagner, the Pirate shortstop.

It is probable that the death of Gay, a former Bruins star, will be charged to the football.

The Harvard eleven has been extremely fortunate this season insofar as injuries to players are concerned.

Miller, the former Mercersburg end, is a student at Haverford, but is not playing football. He intends to enter Penn next fall.

James M. Sheldon, coach of the Indiana university football squad for the last eight years, will not return to Indiana next year.

If all the football cripples were those reported on the eve of the big games, how happy would be the life of the football coach.

University of Pennsylvania students have raised sufficient money to equip a band, which will play during all future football games.

Connie Mack is getting to be somewhat of a football fan. Connie likes the game, but says it is nothing compared with baseball.

During the twenty-four years that all-American football selections have been made only ten westerners have had the honor of being placed on the honorary list.

Captain Henry of the Brown eleven is noted for his line plunging. Henry is a fullback and a strong defensive player, as well as a tower of strength on the attack.

BASEBALL

Many baseball scribes believe that Branch Rickey will give St. Louis a winner next season.

Ty Cobb says that Rollie Zeider is a smart ball player and will have to be watched next season.

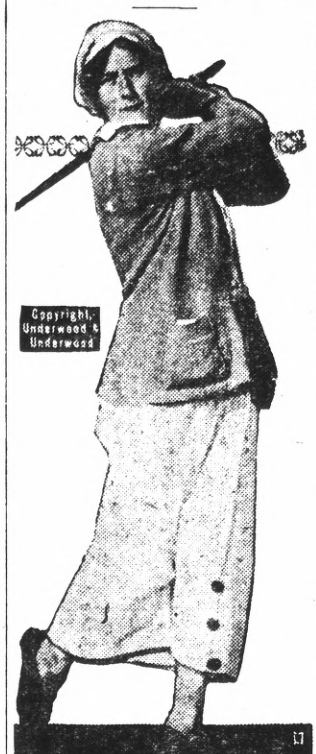

Leash, Bresnahan and Robinson are now pronounced as probable leaders of Federal league teams next season.

Owner Charley Ebbetts of the Dodgers is trying to land a manager's job for Eddie Phelps, the veteran catcher.

Hughie Jennings declares that the Highlanders under Frank Chance are going to make a great showing next year.

BOXING COMMISSION BARS FITZ ON ACCOUNT OF AGE
New York—The State Athletic Commission will not permit a bout between Robert Fitzsimmons and one of the white hopes. Such a bout had been arranged by the Atlantic Garden Athletic Club for the second week in January. Fitzsimmons, in the opinion of all the commissioners, is too old to take part in another ring contest, de-

ENGLISH GOLF CHAMPION

Miss Muriel Dodd, Champion Woman Golfer of Canada and England.

WRESTLING

Dr. Roller has issued a challenge to Ed Lewis, the Kentucky wrestler.

Mrs. Gotch has convinced her champion hubby that he has really retired for keeps.

Zhyasko, hearing Gotch has retired and Mahmut been shot, probably will come over on the next boat.

Among those who won't mourn if Mahmut really was killed are all the heavyweight wrestlers except Gotch.

Gotch is one athlete fans won't blame for being a quitter. He quit when there were no more members of the beef trust to corner.

"It is a deplorable but incontestable fact that public interest in wrestling is slowly but surely dying out," says a dispatch to the Cincinnati Enquirer.

PUGILISM

Kid Taylor of Chicago shaded Leo Roux of Memphis at Cincinnati.

Matty Baldwin of Boston was given the decision at the end of a twelve-round bout at Boston with K. O. Brown of New York.

Willie Ritchie, lightweight champion of the world, defeated Leach Cross in a ten round bout, which went the limit at Madison Square garden.

Pelkey, who won the white heavyweight title when he killed Luther McCarty, wants \$5,000 for exchanging wallop with Gunboat Smith.

Gus Christie, who has been making some rapid strides as a middleweight, stopped Ernie Zanders, the Chicago prizefighter, in the fourth round at Milwaukee.

Bob Moha has been barred by the Wisconsin commission. Moha made the mistake of signing for two fights on the same date. He is set down until Jan. 1.

Klaus says that his knockout by George Chop was due to carelessness. Even so, it will take a decisive victory in a return match to wipe away the damages of defeat.

HORSE RACING

The Lexington meeting was one of the best ever given there.

Ettawah won more money than has any other 3-year-old, his gross being \$24,564.

Ralph Lasbury, of Broad Brook, Conn., has bought the fast pacer, Earl, Jr., 7-01-12.

Frank Dogash, Jr., looks to be about the best prospect for the free-for-all events of next year.

At the ice race meeting at Hull, January 29 to February 4, there will be nine \$1,000 events.

They say for Lassie McGregor, 2:14.4, that she has made the trip in 2:06.5 on a mile ring.

Frank Caton is on his way from Russia and probably will take back a few fast ones with him.

Polmetta, by Barongale-Anella, will be kept by Dromore Farm and probably raced as a four-year-old.

Shawbay, the Silent Brook trotter that promised so well last year, has reduced his record to 2:05.4.

Despite his assertion that he can not only fit himself, but also can whip all of the big fellows now before the public, Fitzsimmons is 51 years old.

Suffragettes Plan Rally
Washington—A jubilee and rally of the Congressional Union of Woman Suffrage is planned for January 11, on the eve of the reconvening of Congress, to secure a standing committee on equal suffrage in the house.

AMERICAN EXPORTERS TAKE AFRICAN TRADE

Reports Show U. S. Leads Other Countries in Goods Shipped

Washington—The success that has marked the efforts of American manufacturers to establish markets for their exports in the union of South Africa, long considered to be exclusive provinces for foreign traders, completely refutes the assertion that foreign competition is driving Americans from the field of export trade, according to a statement made public by the Department of Commerce.

The rapid strides of American exporters into the field of foreign trade has caused a note of warning to be sounded throughout the United Kingdom against American aggressiveness in South Africa, the department says. Statistics are cited by the department showing that for the first five years the United States has shipped into South Africa more goods than any other country.

CONTEST IN ASSASSINATING RATS

More Than Ten Thousand Rats Slain in Five Weeks

Findlay, O.—Farmers of Union township have just ended a rat-killing contest, assassinating 10,036 rats in the five weeks that the contest waged.

There were 114 men on one side and 99 on the other. The winning side killed 5929 and the losers 4107.

"Fido," a small rat terrier weighing not more than a full-grown rat himself, killed more than 2000, assisting each side. In one shock of corn he killed 33 in less than 15 minutes. The event closed with a banquet. It is estimated that the farmers will save next year upwards of \$100,000 by the extermination.

CHILD TRAVELS ALONE ON 6000-MILE JOURNEY

Tagged as Baggage, He Comes to California From Portugal

Eureka—Jose Pereira Rocha, a mite of a youngster whose native land is Portugal, has just completed a unique trip across the Atlantic ocean and the North American continent to a new home which has been made for him by relatives in Arcata, on Humboldt bay.

Attached to the lad's clothing was a tag, issued by the White Star Line, with directions to fill it out and place on baggage. In this case the baggage was little Jose himself, only he traveled third-class and required nourishment en route. The boy is unable to speak a word of English and the directions on the placard were referred to by steamship officers, immigration authorities and train conductors in passing the little traveler from place to place.

Must Pay Cafraire

Washington—Free rides on Washington street car lines for members of the local police and fire forces are a thing of the past. The district commissioners ruled that they may not enjoy this privilege.

Seattle Feels Quake

Seattle—A light earthquake of 40 seconds duration occurred early last Friday morning. It was strong enough to awaken people.

30,000 PEOPLE UNITE IN OPEN-AIR FESTIVAL

San Francisco's Winter Concert Held Beneath Balmy Skies

San Francisco—More than 30,000 joyous, music-loving San Franciscans Sunday evening congregated at Lotta's fountain to celebrate as only San Francisco can celebrate the postponed open-air Christmas eve festival of singing.

The fete was in every way a success. Everything was an argument in favor of the continuation of a custom inaugurated on Christmas eve, 1910, when Mme. Luisa Tetrassini sang to the throngs, followed in 1911 by Jan Kubelik, the violin virtuoso; last year by Mme. Bernice de Pasquali, this year by Mme. Florence Drake Le Roy and Edmund Burke, under the Musicians' Union auspices.

The night was sublime. The stars had retired behind an overhead bank of fog from the Pacific ocean. This, with the tall buildings on all sides, produced a remarkable out-door sounding board to catch and fling back the sonorous notes of the band and the thrilling tones of Mme. Le Roy, the prima donna, Miss Ruth McKenzie and Edmund Burke, the Irish baritone.

The final numbers were "Washington Grays" and "America" by the bands. In the chorus of the latter the thousands of voices joined Mme. Le Roy, Miss McKenzie and the mixed chorus led the audience through "My Country 'Tis of Thee," and the remainder of the beloved patriotic air.

BRAN AND CORN BEST FEED FOR GOOD MILK

Uncle Sam Announces Result of Series of Experiments

Washington—The Department of Agriculture has just concluded a series of interesting experiments to determine the effect on the flavor of milk of feeding different kinds of rations to cows. The department has decided in favor of corn and bran as producing the finest flavored milk.

The experiments were conducted to ascertain the correctness of the theory of dairymen that feeding crushed oats to cows would improve the flavor of the milk. Six cows were used in the experiments, and the various kinds of rations were fed to them. In all 50 opinions were passed on the various samples of milk from these cows. Of these, 16 showed a preference for the milk from cows fed on crushed oats; 25 preferred that from bran and corn feed ration, while nine expressed no choice.

"The results," says a statement issued by the department, "show that in these rations not only was there no marked difference in favor of the crushed oats as a feed to improve flavor, but, if anything, the ration containing bran and corn was more successful in producing a fine flavored milk."

MALE FASHION DANDIES DYE HAIR IN BLUE AND VIOLET

Paris—Several male fashion leaders of Paris now appear with their hair dyed. Blue and violet are the most popular colors. The idea is an echo of the new fad among certain Parisian women of wearing wigs to match their gowns.

Wants No Prison Fare

Los Angeles—Louis Bundy, who confessed he killed Harold Ziesche, 15-year-old drug store messenger, has refused to eat the food provided at the city jail. His food is taken to him by his sister.

\$10,000,000 A Year Wasted On Trusses

How 60 Days' Trial Protects You
Against Throwing Money Away

Away With
Worthless
Makeshifts

Sixty-nine out of every hundred dollars spent for elastic and spring trusses might as well be thrown away.

Close to ten million dollars a year—in this country alone—is practically wasted on such contraptions.

And all simply because nine out of ten trusses are a mere trypsin or hasty examination instead of first making a thorough test.

A Mere Try-on Is a Snare
You can't possibly tell anything about a truss or anything else for trussing merely by trying it on.

A truss or so-called "appliance" may get straight at first and afterward prove utterly worthless.

The only way in the world you can make sure of exactly what you're getting is by making a thorough sixty-day test without having to risk any money.

The Only Thing Good Enough To Stand a 60-Day Test
There is only one thing of any kind for rupture that you can get on sixty days' trial—only one thing good enough to stand such a long and thorough test.

That is our guaranteed rupture holder. We'll make one especially for you—make it to your measure—and let you try it sixty days.

We'll practically lead it to you that long—without cost to you. If it doesn't keep your rupture from coming out or holding it in, we'll take it back and give you a new one—no charge.

If it doesn't keep your rupture from coming out or holding it in, we'll take it back and give you a new one—no charge.

WREATH CURE
A healing salve that cures all kinds of Piles. Painful cases quickly relieved. Cures cuts and wounds.

NEWS for the YOUNG PEOPLE

HANDY BOY ABOUT THE HOME

Every Young Man Should Have Box of Tools and Learn to Repair Articles Damaged About House.

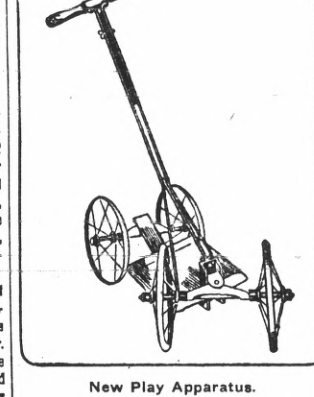

I like the handy boy about the house, who knows how to hang a picture, drive a nail, and do the little necessary repairs. The handy mother wants done. It is easy enough to learn how to use a saw or chisel, and every boy should have a box of tools, so that he can repair articles that may become damaged. The boy who is handy about his mother's house will be of inestimable value to his wife when he shall marry. Boys who do not care to go out at night may learn to make many pretty pieces of furniture, if they will only devote some time to studying how to use tools and paints. With a few lessons, the handy boy may make picture frames, or cabinets, odd corners, or desks or other articles of usefulness and value. The boy who is handy about the house and a help to his mother is one who learns how to make purchases for the household, who can tell a good piece of meat at the butcher's, or pick out fresh vegetables at the market. Oh, no, do not say that marketing is woman's work. It is quite as much man's work, and besides, none of us can afford to ignore even the details of marketing.—Foster Coates.

PLAY APPARATUS FOR BOYS

Wheeled Platform Propelled by Pushing One Foot—Adjustable Handle Is Used for Support.

After watching small boys coasting about on home-made vehicles propelled by one foot, an Indiana man designed a more elaborate affair on the same principle. A low platform is mounted

New Play Apparatus.

on four wheels, two axles of the device being connected by a strong steel band, on which the footboard rests. The construction is such that by tilting the footboard to the right or left the wheels will turn in the same direction, but the toy will not upset. The long handle is adjustable to any height and is used more for support than for guidance. To operate the vehicle a boy stands with one foot on the platform and with the other foot pushes it ahead until sufficient momentum is attained to carry it on. He then gets aboard with both feet and guides it by throwing the weight of his body on one side or the other.

BOYS' SECOND-HANDED FUN

Jacob Rile Says Football and Baseball Paperizes Youth, Both Mentally and Physically.

The shortcomings of baseball and football as sports for boys are pointed out by Jacob Rile in an article on "The Boy Scouts" in the Outlook. He says, "Scouting gives every boy a chance to be in the game," and continues:

The trouble with baseball and football is that they do not do that. They are good as far as they go, but they do not get around. Nine or eleven boys take a hand in them, a hundred or a thousand sit and shout. They have no other part in it. Granted that there are many nines and elevens. Still there are many more whom the game really robs of a boy's most precious quality—Initiative. It paperizes the boys, physically and mentally, by making them take their fun at second hand. But play, said Froebel, is the normal occupation of a child, through which he grows character; and we know Froebel was right. Scouting is all initiative, all individual effort.

"I am not knocking baseball because we didn't know the game when I was a boy in Denmark. I am simply saying what must have been in the minds of many a boy's leader, in and out of school, all these years. The national game can take care of itself. I am glad scouting has come to fill in the chinks, as it were. If some of the fierce competitive spirit is lost that has run riot in the past, the standards are not. Scouting, as I have shown, sets up definite standards to which the boy must come up and which will stand being matched against any boys' game anywhere.

Centipedes and Tarantulas.
A centipede has a deadly fear of a tarantula, and one of the most curious habits of the centipede is his manner of going to rest in the desert when he knows his enemy to be in the vicinity. He builds a cactus fence literally about him.

A tarantula hates a cactus as much as he hates a centipede, and has never been known to crawl over the plant. Secure in this knowledge, the centipede will sleep as long as he wishes while his wistful enemy looks longingly at him over the barrier, powerless to go to the attack.

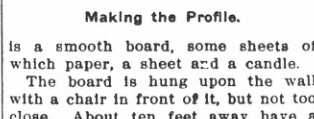

QUITE AMUSING GAME

"Detective's Note Book" Is Not Hard to Arrange.

Pastime Is Intended to Test One's Skill in Identification of Profiles of Villains for Whom Reward Is Offered.

Now that the fall and winter is coming on, the boys and girls will be looking for something in the way of indoor games to amuse their guests at their evening parties, and the boy or girl that can get up something new is always in demand.

A very good game which can be arranged without much trouble is called the detective's note book, and is supposed to test the skill in recognizing villains for whom a big reward is offered, if you have nothing to go by but a picture. The apparatus required

Making the Profile.

is a smooth board, some sheets of which paper, a sheet and a candle. The board is hung upon the wall with a chair in front of it, but not too close. About ten feet away from a lighted candle, the other lights being put out. Ask a boy to sit in the chair, which should have a back high enough to hold his head steady, so that the shadow of his profile falls upon a sheet of paper tacked to the board.

Run around the outline of this profile quickly with a soft pencil. Put a number on it, and the boy's name. Ask another boy to take the chair while your assistant cuts out the profile you have just made. In a few minutes you will have half a dozen and you may stick in one or two fake profiles to add to the fun.

Now hang your sheet where the folding doors go, between two rooms if possible, and set your candle on a table in one room, while your guests take their places in the other. Each person should have a slip of paper to write down opposite the number you call out the name of the boy they think the profile belongs to, the numbers you have put on them being not in order of course, but any number you please, such as 46 and 51.

Standing in the back room, candle one-third of the way from the candle to the sheet, you can hold up a profile so that it throws a shadow, but the outline will be so big and look so curious that you will be astonished how hard it is for a person to guess it, even if it is that person's own profile.

The winner at this game is the one who gets the greatest number of correct guesses. If you have slipped in one or two fake profiles you will find that some one or other will be sure

Profile Finished.
They know the boy and will write his name opposite the number you call out.

It is better to confine the profiles to boys, because girls are too easily recognized by the way they do not make good villains for detectives to hunt.

REAL NAME OF CINDERELLA

She Was Beautiful Egyptian Maiden Who Lived 670 Years Before Common Era—Origin of Story.

Cinderella's real name was Rhodope, and she was a beautiful Egyptian maiden, who lived 670 years before the common era, and during the reign of Psammetichus, one of the twelve kings of Egypt. One day she ventured to go in bathing in a clear stream near her home, and meanwhile left her shoes, which must have been unusually small, lying on the bank. An eagle, passing above, chanced to catch sight of the little sandals, and mistaking them for a toothsome dainty, pounced down and carried off one in his beak.

The bird then unwittingly played the part of fairy godmother, for, flying directly over Memphis, where King Psammetichus was dispensing justice, it let the shoes fall right into the king's lap. Its also, beauty and daintiness immediately attracted the royal eye, and the king, determined upon knowing the wearer of so cunning a hoax, sent throughout all his kingdom in search of the foot that would fit it.

As in the story of Cinderella, the messenger finally discovered Rhodope, fitted on the shoe, and carried her in triumph to Memphis, where she became the queen of King Psammetichus, and the foundation of the fairy tale that was to delight boys and girls 2,400 years later.

Decadence.
An action being tried in an English court had to do with a dispute as to the quality and condition of a gas pipe that had been laid in the ground a number of years before.

"It is an old pipe," stated one of the witnesses, "and therefore out of condition."

The judge remarking dry that "people do not necessarily get out of condition by being old," the witness promptly replied, "They do, my lord, as this pipe has."

MR. AND MRS. WREN

How Home Was Saved from the Small Songsters.

Human Ingenuity Outwitted Sparrows Determined to Drive Them From Abodes That Had Been Provided for Them.

Accepting the open invitation of a large cigar box, tacked on the wall, long way up and down, and perforated with a hole as large as a half dollar piece, Jenny Wren and her husband stopped with us this spring, and delighted us with their domestic felicity all summer long. We even made a little perch just beneath their doorway, to which they took kindly, and where they would perch and sing their masterpieces of heavenly joy.

At last, at twilight, the saucy English sparrows fooled around the neighborhood two months before they discovered that perch. Then a pair of them found it, and learned they could get their heads in the hole. Portholes were ensued, and the blood-thirsty intruders dragged out the babies and dropped them on the ground, after a pitched battle with Jenny Wren and her husband, and amid the anguished tears of two children.

The babies were returned by me, under the watchful eyes of their parents, who immediately came back to the nest. The tragedy was repeated, and then the perch was torn away. The wrens went through the hole without it and with perfect ease, and the sparrows were checkedmate. It took them two days to learn that they could hang to that hole with their feet, just as the wrens did, and Jenny and her husband were again driven away.

In an almost human way the tiny pair seemed to appeal to me for protection. I then took a card and cut a hole in it about as large as a quarter, and this I tacked over the larger opening in the cigar box. Immediately as I came down from the ladder the waiting wrens reassumed possession of their domicile, and though the opening was rather small for them, they cheerfully put up with this inconvenience.

The sparrows returned, but gave up the job when they saw the new doorway. Thus was peace restored in the family of the dear little songsters, and the entire human family rejoiced with them. It was a battle of human wit against those plucky little "boot-blacks" of the bird race—the English sparrow. Never have we had such a bewitching little friend as Mr. and Mrs. Wren, with their friendly chatter and joyous, full-throated song, morning, noon and evening; the insistent diet for their precocious youngsters often being gathered at our very feet.

—J. P. Lowry in Our Dumb Animals.

Mental Telegraphy.
A remarkable case of mental telepathy is connected with the death of a commercial traveler named Stenner, who was fatally injured by falling over the Clifton Rocks, at Cheltenham, England, not long since. At the time of the accident he was in the family of the dear little songsters, and the entire human family rejoiced with them. It was a battle of human wit against those plucky little "boot-blacks" of the bird race—the English sparrow. Never have we had such a bewitching little friend as Mr. and Mrs. Wren, with their friendly chatter and joyous, full-throated song, morning, noon and evening; the insistent diet for their precocious youngsters often being gathered at our very feet.

Waste of Natural Gas.
Were it possible to transport natural gas as coal, petroleum, or other fuels now in use are transported, it would be the leading fuel of the world and its value would probably exceed that of any other commodity. As it is, enormous quantities are wasted annually, quantities too great even to be estimated. The utilization of waste gas from the oil wells in different parts of the United States has been an important means of conserving this fuel, and the increasing number of plants erected and being erected for the extraction of gasoline from this "waste-head" gas was one of the most important features of the natural gas industry in the year 1912.

Mother Would Be Interested.
A little Baltimore girl, aged seven, was not long ago visiting some cousins in Baltimore county. One afternoon a momentous announcement was made to these little cousins.

"Children," said the nurse, with becoming gravity, "you have a new brother—a new baby brother."

Whereupon the Baltimore child laughed and clapped her hands and extended her heartiest congratulations to her cousins.

"And now, children," she said, in her turn, "you must run and tell your mamma!"

Her Welcome.
Niece—Aunt, this is our new minister, who has called to see you.

The Old Lady—Indeed, I'm glad to see you sir, and I hope you will call as often as the last incumbency did.

—Puck.

Heroic Treatment.
Marie—"How are you going to reform him?" Kate—"By marrying him."

Marie—"Goodness! Does he require such heroic treatment as that?"

Daily Thought.
I have always thought the actions of men the best interpretations of their thoughts.—Locke.

The Only Time.
Wife—"Do you love me still, dear?" Hub—"Why, yes; but you're never still."

"BLOOD IS THICKER THAN WATER"

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anæmia, is common in young folks as well as old. Especially is it the case with those who work in the ventilated factories—or those who are shut up indoors in winter time with a coal stove burning up the oxygen or emitting carbonic (oxide) gas. This blood, or blood which lacks the red blood corpuscles, in anæmic people may have been caused by lack of good fresh air breathed into lungs, or by poor digestion or dyspepsia. Sometimes people suffer intense pain over the heart which is not heart disease at all, but caused by indigestion. Whatever the cause, there's just one remedy that you can turn to—knowing that it has given satisfaction for over 40 years.

DR. PIERCE'S

GOLDEN MEDICAL DISCOVERY

Is a blood cleanser and alterative that starts the liver and stomach into vigorous action. It thus assists the body to manufacture rich red blood which feeds the heart—nerves—brain and organs of the body. The organs work smoothly the machinery running in oil. You feel clean, strong and vigorous instead of tired, weak and faint. Nowhere you can obtain Dr. Pierce's Golden Medical Discovery Tablets, as well as the liquid form from all medicine dealers, or tablets by mail, prepaid in \$1 or 50c size. Address R. V. Pierce, M. D., Buffalo, N. Y.

DR. PIERCE'S GREAT 1008 PAGE ILLUSTRATED COMMON SENSE MEDICAL ADVISER WILL BE SENT FREE, CLOTH BOUND FOR 21 ONE-CENT STAMPS.

How Fast Can a Duck Fly?
A very interesting account is given in *Outing* on timing the speed of ducks. The author says in part: "Seven green-winged teal were timed at 39 seconds, or 92 miles per hour and a pair of green-wings at 40 seconds, or 90 miles per hour. All this time my farmer boy had been doing his best; he shot at them all, no matter how high they were. The large flock of bluebills scarcely raised when he shot, so high were they. So far he had not killed a duck, although in one of the mallard flocks he had made one of them take to the weeds. I was watching a little bunch approach him when he went the flash and one of them crumbled out. In exactly 27 seconds I checked off nine spoonbills, giving them the blue ribbon for the day with a speed of 133 miles per hour. Whether the fact that one of their number was killed made the difference I do not know. It did not have this effect on the bunch of mallards. When one of their flock was hit, he did not go straight down as the spoonbill did, but I would think that the effect on the flock would have been the same."

Cities Ages Old.
Forgotten cities of a prehistoric people, far beyond what was deemed the furthest eastern limit of the town buildings, were reported by Fr. Julius Hartmann of the Catholic parish at Willard, Torrence county, to the school of American Archaeology at Santa Fe, N. M., recently. Fr. Hartmann made a survey of sixty miles of ruins and rock inscriptions extending from the present Mexican villages of Pinos Wells to the Canyon Pintada in a region that is desolate and uninhabited and touched only at long intervals by sheep herders. The ruins of the villages and communal dwellings antedate the Spanish conquest of three hundred and more years ago, and judging from the debris that covers the sites and hides the ruins, the cities are a thousand and more years old. The two villages nearest to Pinos Wells are located on a high mound, and the communal buildings are circular in form. From the burial places, the prehistoric skeletons, funeral urns, pottery, stone implements, weapons and other relics, characteristic of the prehistoric town builders of the Rio Grande valley.

Bought State House.
Perhaps there are some palliating circumstances about the case because the victim was a simple Italian, not long in this country; but the scheme is so old and thin that no one who reads the papers should get caught. It was in Boston that Marco Anthony Otolio, an Italian, met two fellow countrymen, as he was admiring the state house. They offered to go into partnership with Otolio and buy the imposing building. Otolio was pleased and bit. He gave up his \$500, which was put into a handkerchief with the money of the other men. The handkerchief was then entrusted to Otolio while the others sought a lawyer to draw up the deed. Otolio found it contained only some newspaper clippings. The dunco men haven't been found.

EVERY WOMAN WILL BE INTERESTED.
There has recently been discovered an aromatic, pleasant herb—just for women's use, called Mother Gray's AROMATIC LEAFY. It is the only certain regulator. Cures female Weaknesses and Backache, Bloating, Bladder and Urinary troubles. At all Drug stores or by mail 25c. Sample FREE. Address: The Mother Gray Co., Le Roy, N. Y.

Denmark is trying out a new pontoon bridge in which the pontoons are anchored beneath the surface of the water, the bridge remaining motionless irrespective of the rise and fall of the tide.

Mother will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period. Adv.

Gets Right Twist On Rheumatism

Makes Short Work of Cleaning Out Your Entire System—Aches and Pains Go Fast.

In S. S. S. You Get a Twist on Rheumatism That Settles It.

Many a rheumatic sufferer has been to the drug store and bought some of those "just as good" pills, to ask for bread and be given a stone in still in practice. If you are troubled with rheumatism, be sure to use S. S. S. and note its wonderful influence.

S. S. S. has the peculiar action of soaking through the intestines directly into the blood. In five minutes its influence is at work in every artery, vein and tiny capillary. Every membrane, every organ of the body, every emunctory becomes in effect a filter to strain the blood of impurities. The stimulating properties of S. S. S. compel the skin, liver, bowels, kidneys, bladder to all work to the end of casting out every irritating, every painful, every poisonous element. It dislodges by irrigation all accumulations in the joints, causes acid secretions to dissolve, renders

them neutral and scatters those peculiar formations in the nerve centers that cause such mystifying and often baffling rheumatic pains.

And best of all this remarkable remedy is welcome to the weakest stomach. If you have dragged yourself until your stomach is nearly paralyzed, you will be astonished to find that S. S. S. gives no sensation but goes right to work. This is because it is a pure vegetable infusion, is taken naturally into your blood just as pure air is inhaled naturally into your lungs.

Get a bottle of S. S. S. today, and ask for S. S. S.

You may depend upon it that the store that sells you what you ask for is a good place to trade. Write to the Swift Specific Co., 214 Swift Bldg., Atlanta, Ga., for their Book on Rheumatism.

A 20-Acre Home to Exchange

for a small home, small fruit or chicken farm, newspaper or printing plant, or store, in good California village.

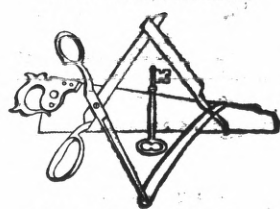

This home is in the new frontier town of Amistad, in Union county, northeastern New Mexico, near Colorado, Oklahoma and Texas. Amistad was settled by all American people as an educational and religious community; has good churches, schools, stores, pure water, fine cattle; was a great cattle country before being surveyed into quarter sections for settlers. The best country known for curing early stages of consumption, tuberculosis, asthma, etc.; in fact tuberculosis obliged the owner to locate family there and the sick are now in perfect health.

This property for exchange is all clear and perfect title, consists of 20 level acres close in edge of town, best strong, heavy woven wire fence all around; 30x50 big, well finished adobe residence, out-houses, cross fence; also three business lots and two residence lots.

SATISFACTION.

The convenience of cooking and heating with gas cannot be too
strongly overestimated. It is a never ending source of satisfaction
to the busy housekeeper. Let us explain its possibilities.

"Pacific Service" is "Perfect Service"

Pacific Gas & Electric Co.

709 Macdonald Ave.

Phone Richmond 5311

Richmond's Industries — Number of Men Employed.

In answer to numerous inquiries as to the number of manufacturing industries in Richmond, the Terminal has with its readers a list for the benefit of its readers and those who may be interested in Richmond's development. Richmond has 34 manufacturing industries, 8 of which employ (March 1, 1913) 4365 men, classified as follows:

No. of Men Employed.	Industry
2190	Standard Oil Co.
750	Pullman Shops
650	Santa Fe Shops
175	Western Pipe Works
175	California Wine Association
165	San Francisco Quarries
100	Pacific Portland Works
75	Pacific Sanitary Mfg. Co.

Total 4365

Besides the above there are 26 smaller manufacturing industries in Richmond such as brick works, cap and match factories, etc., employing 850 men and women. These figures are conservative and not given for advertising purposes. They are taken from statistics gathered by the Western States Gas & Electric Co., by request of their main headquarters at Chicago.

The assessed valuation of Richmond property is \$17,333,352.10. Bonded indebtedness, \$300,000, for harbor improvements. Number of building permits for 1912 were 902, value \$800,000.

Notice to Taxpayers.

State and County Taxes for the Fiscal Year 1913-1914.

OFFICE OF THE COLLECTOR OF STATE AND COUNTY TAXES, MARTINEZ
NOTICE is hereby given that I have received from the Auditor of Contra Costa county the duplicate assessment book for the fiscal year 1913-1914, and

First—That the taxes on all personal property owned by real property, and one-half the taxes on real property will be due and payable on and after the

Second Monday in October, 1913, and will be delinquent on the Last Monday in November

next thereafter at 6 o'clock p. m., and unless paid prior thereto, fifteen per cent will be added to the amount thereof, and if said taxes are not paid before the

Last Monday in April, 1914, at 6 o'clock p. m., an additional five per cent will be added thereto. The remaining one-half of the taxes on all real property will be payable on and after the

First Monday in January, 1914, and will be delinquent on the Last Monday in April

next thereafter at 6 o'clock p. m., and unless paid prior thereto, five per cent will be added to the amount thereof.

Second—That all taxes may be paid at the time of the first installment, as herein provided, in due and payable.

Third—That payment of taxes must be made at the office of the tax collector, in the town of Martinez.

M. W. JOOST,
Tax collector of Contra Costa county

Friday as Adv. Day.

Friday is the day that the merchant does his heavy advertising. Why? Because his adv. will reach the Saturday and Monday shopper in due time. The Saturday and Monday specials receive publicity in Friday morning's Terminal, the paper that reaches its readers in time to read the bargains.

THE TERMINAL

ISSUED EVERY FRIDAY
Established in 1903
Legal City and County Paper.

GEO. W. RYAN, Publisher and Editor

Terms of Subscription: One year, in advance, \$2.00; Six months in advance, \$1.00. Advertising rates on application.

Entered as second-class matter June 22, 1903, at Richmond, California, under the Act of Congress of March 3, 1879.

Legal notices must be paid for on or before delivery of affidavit of publication. No exception to this rule.

For the cause that lacks assistance, Against the wrong that needs resistance, For the future in the distance, And the good that we can do.

Date it "1914."

Golden raindrops, and lots of 'em.

The 16th street subway is still "slightly leaking."

Beating eggs may be prohibited by humane societies.

The New Year's caller should be careful about "muddy shoes" this year.

The city will have a large problem—What to do with the tide-lanes.

The old year went out shedding copious tears. California is wet, sure enough.

There is just one popular brand of water for the bay cities, Richmond included, and that is the Hetch Hetchy.

When Commandant Pond is transferred to Bremerton navy yard, Richmond will have lost a great booster for the U. S. naval base at Richmond and Albany.

General Prosperity is making an extended tour of California, and with the assistance of J. Pluvius the joys have the field.

Take St. Paul's advice and start off the new year by adopting his philosophy: "Prove all things; hold fast to that which is good."

The greatest of all business mistakes is to do your own business at a loss for the sake of impoverishing the other fellow. Reaction is sure to follow.

The New Year's Fiesta at Holtville was attended by 15,000 persons. A free turkey dinner was served under the palms and peppers in the spacious city park.

The saying that "the early bird catches the worm" can be interpreted by the man determined to catch a job and hold it—he will have plenty to eat.

John M. Eshleman declined the position on the Interstate Commerce Commission tendered by President Wilson. Mr. Eshleman is doing nicely in California, and the people want him to stay here.

Congressman Jos. R. Knowland has secured an appropriation of \$115,000 for the Oakland postoffice annex, this amount being now available. Work on the structure will begin as soon as the necessary ground space is acquired.

Will J. French and A. J. Pillsbury were reappointed by Governor Johnson on the state industrial accident board. Both are practical newspaper men and well known in the bay cities where they have held positions on various publications.

San Jose burglars make it a rule to return to owners all phony diamonds, as it is unprofessional and contrary to the "ethics" to be caught with artificial goods. An aristocratic lady of the Garden City was humiliated by having her diamonds returned to her by burglars, the gems marked "bogus."

It appears that the matter of city printing for 1914 is an item that has been overlooked. The printing should be given to all the newspapers that boost for Richmond. The Terminal has always been one of the best boosters for civic and commercial enterprises and deserves a share. No councilman rightly serves the people who neglects this duty.

The tunnel contract was awarded to the Shattuck Edinger Co. of San Francisco for \$250,317.76. On a quarter of a million dollar bid, it would seem that the bid could be made even money, say \$250,317.75. The odd cent in the final figures of bid (76c) are mystifying to the public, and imbue the ordinary "mutt" with a "feeling of awe" for the wise mathematician who can juggle figures so accurately as to split a hair in a quarter of a million dollar contract.

TRY THESE RESOLVES FOR THE NEW YEAR:

That I will live within my means.
That I will be temperate in all things.
That I will practice the Golden Rule.
That if I can follow the above directions, I will never have occasion to "swear off."

ESHLEMAN ON PUBLIC UTILITIES

J. M. Eshleman in his San Rafael address before the men's club of the Presbyterian church, said: "I have no desire to advocate turning over public utilities to the railroad commission, but I do say that some kind of regulation of the public utilities must take place if these utilities are to remain in the hands of the public." Mr. Eshleman showed that regulation by the public is the outgrowth of evils arising from the monopolization of utilities by private corporations.

He also showed where public utilities sometimes require regulation and improvement. Rates are not the all important question. He said the one of no little significance was the kind of service these utilities render.

The progressive club now being organized in Richmond will endeavor to secure Mr. Eshleman for a date in January or February to give his popular and instructive lecture on the "Control of Public Utilities by the Railroad Commission."

The selfish and reactionary proposal to restrict to land owners all voting on proposed bond issues is assured of a place on the ballot at the general election in this state next November, the initiative petition to that end having received the requisite number of signatures. This is a vicious move in the interest of landlordism and against public improvements. Every progressive elector in California will vote against it when the time comes.—Sacramento Bee.

Moscow.

Moscow is one of the most famous cities in Europe. Exactly 100 years before Napoleon's mad Moscow yielded up to Petersburg—the modern addition "Saint" was unknown to its founder, Peter the Great—the position of capital of the Russian empire but its geographical situation has enabled it to remain the premier commercial and industrial city. The heart of Moscow is the Kremlin, where the czars are crowned and where may be seen the 875 cannon which Napoleon took to the city and left behind him when forced to retreat with the remnant of his great army. Moscow is 400 miles southeast of Petersburg, with which it is connected by a railway line almost as straight as the crow flies. When Nicholas I. decided the line should be built he drew a straight line on the map between the two cities, and engineers overcame almost incredible difficulties to keep the railway to the route indicated.

Once Upon a Time in France. There was a time in France when a foolish actress who was ambitious enough to want a decoration and so ill advised as to make application for it to one of the ministers was punished by imprisonment. It was during the reign of Louis XV., and the first gentleman in waiting of his majesty wrote this to the governor of the Fort l'Eveque prison:

Dear Sir—Having been informed that Miss Clutren has had the insolence and has seen Deaf as much to solicit one of the king's decorations, to which neither her sex nor her profession entitles her, I write you are to look her up in your good prison of la Port l'Eveque and make things sufficiently uncomfortable for her to teach her a lesson. However, one of your men will have to conduct her to the Comte de France in order that the public shall not be deprived of the pleasure of applauding the talent of this indiscreet woman.

Maybe He Had None.

Rex Beach was at the dress rehearsal of one of his plays, and he was there to see that everything was done exactly right. In one scene a member of the cast failed to pull down his cuffs. "Wait one minute!" exclaimed Beach, prancing out to the middle of the stage and interrupting the rehearsal. "Halt right where you are! Haven't I told you to pull down your cuffs? Doesn't the book tell you to pull down your cuffs?" "Yes, sir," said the actor. "Well, you haven't done it," objected the playwright. "Pull them down! Down, down, down! Every gentleman pulls his cuffs down." "I fear," said the actor coolly, "you go too much on hearsay."

Sunday as It Used to Be in London. Those who object to Sunday amusements sometimes speak as though in bygone times our countrymen were exemplary in their observance of the Sabbath. In 1805, however, a chronicler, quoted by Mr. Nevill in "The Merry Past," estimated that over 200,000 Londoners spent their Sundays in the lanes and tea gardens round the metropolis, and the condition of these pleasure seekers at nightfall he calculated to be as follows: Sober, 50,000; in high glee, 90,000; drunkish, 30,000; staggering tipsy, 10,000; muzzy, 15,000; dead drunk, 5,000.—London Spectator.

OPEN FORUM

Wants "Info."

Editor Terminal: Inasmuch as the U. S. government enacted a law which will permit the bay cities to use Hetch Hetchy, and the people of Richmond all apparently talk for Hetch Hetchy snow water, do our water commissioners want Sacramento river water, too? The people of Richmond will not vote for Sacramento river water to the tune of \$2,400,000 bonds, if what others say is a criterion.

Another question I would like to ask is, When do the terms of office of Richmond Municipal Water district commissioners expire?

TAXPAYER

[In answer to the above questions the editor can only venture an individual opinion: That the water question is nearing a solution with the Hetch Hetchy source of supply in sight. That the water commission can be dispensed with when the taxpayers say the word.]

Workingman Asks.

Editor Terminal: I see by the papers that the tunnel contract has been let, but nothing has been published in regard to the kind of labor to be employed—whether it will be imported cheap labor, or residents and property owners of Richmond.

I am simply asking for information, as local workingmen are very much interested, as well as Richmond storekeepers, who expect increased activity in trade when the work is under way.

I am a union man, and believe in union principles, which stand for good pay and better conditions, happy families and higher ideals in life. I hope the municipal improvement work of Richmond will be given to the workingmen, who aspire to a higher citizenship and are directly interested in the advancement of Richmond. Yours truly, WORKINGMAN.

[Inquire of the central labor and building trades councils of Richmond or San Francisco.]

Water Used in the Steel Industry. Great quantities of water at medium pressures are used in a steel plant, most of it for cooling purposes. The following gives a good idea of the water required by the several departments of a steel plant: The total consumption of the plant, including six blast furnaces, seven rolling mills, bessemer and open hearth steel mills, twenty-four gas engines and about a hundred gas producers, was 52,500,000 gallons per day. The average daily displacement of the pumps for one month during the time these measurements were taken was 60,877,000 gallons, no allowance being made for slip. The pumps used for pumping this cooling water in steel plants are about the same type as those used in city pumping stations, steam reciprocating pumps with compound or triple steam cylinders or motor driven centrifugal pumps. The usual water pressures are from forty to thirty pounds.—Robert L. Streeter in Engineering Magazine.

Looking on the Warm Side. Howell—Howell is always looking on the sunny side. Powell—I guess that is why he makes it but for people.—New York Press.

A Dandy Duke. The Duke of Buckingham took twenty-seven suits of clothes to Paris in 1823, one of white velvet set all over with diamonds, worth \$14,000. He also wore a diamond feather and diamond buttons and earrings. A curious fashion for men prevailed in 1812 of ornamenting the ear with strings of black velvet ribbon, also of placing a rose behind the ear.—London Saturday Review.

The Name Servis. The Serbs have a grievance against the English language for spelling the name of their country, Servia, with a "v," as though it came from "servus," a slave. There is really no such connection, and in other languages it is spelled properly, with a "b."—Springfield Republican.

Becoming Oblivious. Mrs. Clum—I don't believe you've heard a word I've been saying for the last half hour, John! Clum—No, my dear. I've been cultivating absence of mind.—Judge.

He Didn't. Instructor—Did you slier this? Youth (with a sly smile)—No, I was afraid it wouldn't stand the strain.—Harvard Lampoon.

Live with the wolves, and you will learn to howl.—Spanish Proverb.
